

Shipping with DHL

Anna Zozulenko - 2025-06-06 - Sell on Bloop Marketplace

DHL is a trusted partner of Linework for Bloop shipping services. Here's a step-by-step guide:

Enable DHL as a Shipping Method: When setting up your store, ensure that you select DHL as one of the shipping methods available to your customers.

Receive Orders: Once a customer places an order for your product through your store, you'll receive a notification.

Fulfill Orders: In your store's order section, locate the order that needs to be shipped and click on the "Fulfill" button.

Schedule shipping: When you receive an order, you must select a shipping date in the order details. Once the date is confirmed, the system will send the shipment details to DHL, generate the shipping label, and send it to you.

Package Drop-off: After selecting the shipping date, you must bring the package with the **DHL shipping label** to the nearest **DHL drop-off point** that accepts shipments.

Remember, shipping costs are covered by the buyer. By following these steps, you can ensure a smooth and efficient shipping process with DHL.
