

What is Linework Chat?

Anna Zozulenko - 2025-04-18 - Chat

Linework Chat is a messaging feature within the Linework App that allows users to send private messages to each other. This feature supports various types of conversations, including single chats, group chats, Bloop chats, and archived chats, catering to a wide range of communication needs within the community.

Single Chats: Private, one-on-one conversations with another user.

Group Chats: Multi-user conversations where you can communicate with multiple people in a single chat.

Bloop Chats: Specialized chats for Bloop marketplace interactions, allowing sellers to communicate with their customers and vice versa.

Archived Chats: A section where users can archive older chats they wish to keep but don't need immediate access to.
